

Managing Internet and World Wide Web Risks

Internet Security

In order to protect personal information, JASA uses technologies and processes such as encryption, access control procedures, network firewalls and physical security. These measures increase the security and privacy of information traveling to, from and within our Web site. Only our authorized employees or agents carrying out permitted business functions are allowed to access personal information. Employees who violate our privacy access policies may be subject to disciplinary actions, up to and including termination.

Web Site Functionality

Due to the importance of JASA's Web site, the CEO, along with the Director of IT, has responsibility for the site. The CEO shall oversee the creation of a policy to ensure ongoing monitoring of the Web site. This policy shall include a process for suspending the operation of the site when required as well as its speedy restoration.

Web Site Content

To maintain the integrity of the organization's Web site, the CEO will oversee the content and look and feel of the site. The CEO ensures that content meets the organization's quality standards and due diligence has been completed to ensure that the organization is within its rights to use any material it posts.

As part of its work to protect the reputation and legal interests of the organization, JASA posts the following Web site disclaimer:

Web Privacy Policy

The following policy statement is posted on our Web site:

JASA respects the privacy of visitors to its Web site. We strongly believe that if electronic commerce and online activities are to flourish, consumers must be assured that information provided online is used responsibly and appropriately. To protect online privacy, the organization has implemented the following policy.

About the Information We Collect - Most of the data and information we collect through our Web site is used only to help us achieve our mission. It is our policy to collect and store only personal information that our clients knowingly provide.

From Casual Web Site Visitors and General User - We do not collect any personal information from users browsing our Web site. When you use the public areas of our Web site you are doing so anonymously. We do collect aggregate use information, such as the number of hits (visits) per page. We use aggregate data for internal and marketing purposes, but we don't collect any personally identifying information.
